

# SOCIAL NAIL CARE PRODUCTS

Social Nail Care products from Timesco are a low cost, yet good quality range of instruments, designed for single patient use, as an effective alternative to single use instruments.

Using Social Nail Care products will help to protect your patients from infections borne from cross contamination.

Our Snippy and Nippy nail cutters offer the same high levels of quality that you would expect from Timesco but are made from lower specification steel as they are not designed for autoclaving.

Please note that due to their intended use, nippers sold in the range are guaranteed for 1 year.

More products also available at <https://timesco.com/podiatry/>
